

HOOK

Do you really know who's *interested*?

For real estate agents, understanding client engagement is key. Static cards leave you guessing about who's genuinely interested after an open house or showing.

1 No insight on card views for real

2 Unsure if contacts are saved

3 Lost opportunity for targeted follow-up

4 Track views, scans, and clicks

01

Card Views: Gauge Initial *Interest*

Digital Card Creator tracks how many times your card is viewed. This helps you understand initial reach and general interest in your profile and listings.

1 See total card views for real

2 Identify popular listings or offers

3 Understand audience reach for real

4 Track views, scans, and clicks

02

QR Scans: Identify Active *Prospects*

Every QR scan is a deliberate action, showing a prospect's active interest. We track these scans, so you know exactly who connected with your card on the spot.

1 Pinpoint direct connections for real

2 Measure event engagement for real

3 Track scans from specific properties

4 Track views, scans, and clicks

03

WhatsApp Clicks: Spot Serious *Inquiries*

When a client taps your WhatsApp Connect button, it signals a high level of interest and intent to communicate. This is a critical metric for prioritizing your follow-ups.

- 1 Identify high-intent leads for real
- 2 Prioritize urgent conversations
- 3 Measure direct communication starts
- 4 Track views, scans, and clicks

04

Phone/Email Clicks: Measure Direct *Contact*

Direct clicks on your phone number or email show a strong desire to get in touch immediately. These insights help you see which contact methods are most effective.

1 Understand preferred contact methods

2 Gauge direct outreach intent

3 Optimize your card's call-to-actions

4 Track views, scans, and clicks
