

HOOK

Are these booking mistakes *costing* your salon?

From missed calls to confusing forms, common booking page errors can deter potential clients and create unnecessary stress for your team. Let's optimize your process.

1 Clients abandon bookings

2 Stylists get double-booked

3 Too many manual reminders

01

Mistake: No *Calendar Sync*

Without real-time calendar integration, you risk double-booking busy stylists or showing incorrect availability. This leads to cancellations and client frustration.

1 FIX: NEW Google Calendar sync

2 Real-time availability updates

3 Eliminate booking overlaps

02

Mistake: Manual *Reminders*

Manually calling or messaging every client for their appointment takes valuable time away from your front desk. This is inefficient and prone to human error.

1 FIX: Automated Notifications

2 Email and SMS reminders

3 Reduce no-shows significantly

03

Mistake: No *Buffer Time*

Scheduling appointments back-to-back without any buffer time leads to rushed services, delayed clients, and overworked staff. Quality suffers, and stress increases.

1 FIX: NEW Buffer Time feature

2 Automatic padding between services

3 Ensure quality and staff rest

04

Mistake: Clients Can't *Reschedule*

Forcing clients to call during business hours to change an appointment is inconvenient for them and disruptive for your staff. This can lead to frustration or even cancellations.

1 FIX: NEW Client Reschedule

2 Clients manage appointments 24/7

3 Fewer phone calls, happier clients

Transform your *salon's* booking process!
