Is your *online stack* a client headache?

For fitness studios, managing online bookings, virtual class links, and client communication often requires a patchwork of tools. This complexity can lead to errors and a poor client experience.

- 1 Simplify your online offerings
- 2 One plugin for all online needs
- 3 Improve client satisfaction

01

Free Zoom *integration*

Automatically generate and send unique Zoom meeting links for every online class or personal training session. This saves precious admin time and ensures clients always have the correct link.

- 1 Auto-generate meeting links
- 2 Directly integrates with bookings
- 3 Seamless for virtual fitness

02

NEW Google Meet *automation*

Expand your virtual class options with our NEW integration for Google Meet. Offer your clients flexibility and a familiar platform for their online fitness journey, all managed within BookWellNow.

- 1 Supports Google Meet links
- 2 Another flexible option
- 3 Easy setup for online sessions

03

Instant Booking *Confirmations*

Every successful booking triggers an immediate confirmation email, providing clients with all the details they need. This clarity reduces client queries and builds trust from the start.

1 Automated email confirmations

2 Clear booking details sent

3 Reduces client uncertainty

04

NEW Automated *Reminders*

Significantly reduce no-shows for your fitness classes with our NEW automated reminder notifications. Keep clients engaged and ensure they arrive ready for their session, boosting attendance and revenue.

- 1 Boost attendance rates
