

WHY SWITCH

Modern networking for *advisors*

Paper visiting cards fade and get misplaced. Digital Card Creator puts your firm profile directly into client contact lists.

1 Zero app download required for recipients

2 Professional templates tailored for legal & consulting

3 One tap saves your direct line to their phonebook

4 Track views, scans, and clicks

01

Instant *QR connection*

Display your QR code at conferences or during client meetings for instant contact transfers.

1 High-contrast QR code optimized for quick scans

2 Works directly from your mobile lockscreen or app

3 Transfers phone, email, practice areas, and website

4 Track views, scans, and clicks

02

Built-in *WhatsApp Connect*

Allow prospective clients to initiate consultation inquiries with a single tap.

1 Pre-configured chat link opens directly in WhatsApp

2 Reduces friction between handshake and client conversation

3 Tracks every inquiry attempt on your live dashboard

4 Track views, scans, and clicks

03

Live *card analytics*

Know exactly when prospective corporate clients view your professional credentials.

1 Real-time alerts for card views and clicks

2 Track scan performance after industry summits

3 Measure follow-up engagement across your team

4 Track views, scans, and clicks

04

Update details *anytime*

Never worry about printed card typos or office address changes again.

1 Modify your title, phone number, or firm links instantly

2 Updates reflect immediately on previously shared links

3 Eliminate firm reprinting bills entirely

4 Track views, scans, and clicks

Build your *digital card* today

Comment CARD to get the app link and advisory setup template.
