

## HOOK

# Your Booking Button's *Superpower*

Make every part of your WordPress site a booking opportunity. BookWellNow offers shortcode flexibility and a universal booking button to capture appointments from any page.

1 `[bookwell\_booking]` shortcode

2 Universal popup button

3 Pre-select service/staff

01

# Place Forms *Anywhere*

Embedding your booking form is as simple as adding a shortcode. It works perfectly with Gutenberg, Elementor, and all modern themes, requiring no coding.

- 1 Single shortcode
- 2 No coding needed
- 3 Integrates smoothly

02

## The Universal *Booking Button*

Add a floating or fixed button that launches your booking popup. This ensures clients can schedule an appointment no matter where they are on your site.

- 1 Consistent CTA
- 2 Always visible
- 3 Customizable text

03

## Direct *Booking Links*

Speed up the booking process by directing clients straight to a specific service or staff member. Ideal for marketing campaigns or service-specific pages.

1 `service\_id` preselect

2 `staff\_id` preselect

3 Reduces clicks

04

## Simplify Your *Client Journey*

Remove friction from the booking path and watch your appointments grow. A seamless booking experience keeps your veterinary clients happy and engaged.

- 1 Faster bookings
- 2 Improved client satisfaction
- 3 More appointments
