

CHECKLIST

4 automations your *SaaS ops* needs

Stop losing hours to manual data entry between your CRM and Slack.

01

Instant prospect *enrichment* pipelines

Trigger on Calendly bookings. Fetch Apollo data, scrape their site, and post a Slack dossier 10 minutes before the call.

02

Automated post-signature *onboarding*

Listen to DocuSign webhooks, auto-provision PostgreSQL tenant databases, and spin up private client Slack channels instantly.

03

Intelligent Stripe *failed* payments

When Stripe dunning fails, let an AI agent check if their domain changed, draft a personalized email, and notify account executives.

04

Real-time CRM *hygiene* checks

Have a background worker audit your HubSpot fields weekly.
Alert managers about stale pipelines without manual review.
