

HOOK

Wire Your *SaaS Stack* in 5 Days

Stop copying contract details manually. Here is how to automate your onboarding pipeline today.

SWIPE →

01

Catch the Webhook First

Set up a Python FastAPI listener to capture the DocuSign contract signing event instantly.

02

Extract Data with AI

Pass the contract PDF through Gemini to pull out seat counts, pricing, and custom SLA tiers.

03

Auto Provision the Tenant

Run a database migration in your Postgres cluster to spin up the new customer tenant.

04

Alert Team and Sync CRM

Create a private Slack channel for the customer and write the contract value directly back into HubSpot.
