Stop chasing *pet grooming* bookings manually

Learn how to easily move from spreadsheets and phone calls to automatic WordPress scheduling.

01

Gather your *client database*

Export your existing pet owner lists. Prepare your grooming services, prices, and staff working hours.

02

Add unlimited *grooming staff*

Install BookWellNow on WordPress. Set up shifts, holidays, and specific break times for each groomer with zero extra fees.

03

List your *grooming services*

Configure bath, haircut, and nail trim services. Add custom duration buffers to allow for clean-up between pets.

04

Embed the *booking form*

Paste our quick shortcode onto your site. Customers can now book 24/7 on mobile, without needing to call you.
