01

Auto-add *prep* time

Our Pro Buffer Time feature automatically inserts padding before or after appointments. This ensures staff are ready and refreshed, enhancing service quality and staff well-being.

- 01** Configure buffer time in your BookWellNow Pro settings.
- 02** Apply universally to all services or customize for specific services.
- 03** Prevent overlapping bookings due to inadequate transition time.
- 04** Staff can start each appointment feeling prepared and focused.

Protect your *schedule*

Buffer Time (PRO) is crucial for businesses that need to clean, reset, or travel between client appointments. It helps prevent burnout and keeps your day flowing smoothly.
