01

Booking shortcodes for *any* page

After setup, easily embed your booking system anywhere on your WordPress site using shortcodes. The `[bookwell\_booking]` shortcode displays your full booking form, and `[bookwell\_booking\_button]` creates a universal popup button.

BEFORE

The old way

- ✗ Embed `[bookwell\_booking]` on any page or post
- ✗ Use `[bookwell\_booking\_button]` for a popup form
- ✗ Pre-select services with `service\_id` attribute

AFTER

With BookWellNow

- ✓ 24/7 WordPress booking
- ✓ Staff shifts
- ✓ Customer panel

02

Flexible scheduling for every shift

Our free core plugin 4.0.10 includes robust staff shift management, allowing for detailed scheduling. Easily duplicate existing services and staff to save time, and even manage overnight shifts for businesses with extended hours.

- 01 Duplicate services with a click
- 02 Duplicate staff profiles for quick setup
- 03 Configure staff shifts across midnight
- 04 Add breaks and special working hours
