*monthly SaaS fees*

As an agency building WordPress sites, you know the struggle of recurring SaaS fees for booking systems. BookWellNow offers a powerful, free core plugin for client sites, eliminating those extra monthly costs.

Integrated directly into WordPress

No external dashboards to manage

Client owns all their booking data

# Embed *booking* anywhere with shortcodes

Seamlessly integrate BookWellNow into any client page or post using simple shortcodes. The `[bookwell\_booking]` shortcode places the full booking form, and `[bookwell\_booking\_button]` creates a flexible booking button with optional `service\_id` or `staff\_id` preselection.
